

JAPAN DENTAL ASSOCIATION
THE FELLOWSHIP OF THE INTERNATIONAL SCIENTIFIC EXCHANGE FUND
RESEARCH ACCOMPLISHMENT REPORT

Name of Recipient: FREDY MARDIYANTORO	Period of Fellowship: April 1, 2020 – March 31, 2021
Research Subject: Bone Regeneration	
Host Institution in Japan: Kagoshima University	Host Supervisor in Japan: Prof. Norifumi Nakamura
Accomplishments during your stay in Japan: (If this space is not enough, please attach a report) When I got a fellowship from Japan Dental Association, I was in the first grade of Ph.D. Course in Kagoshima University. At that time, I studied knowledge and laboratory skill. Besides, I initiate a collaboration project between Brawijaya University (my home base) and Kagoshima University by inviting Prof. Nakamura as a visiting Professor in Brawijaya University.	
Publications: Potential Effect of Djambal Catfish (<i>Pangasius djambal</i>) Gelatin as Biomaterial Product on Healing Socket After Tooth Extraction in Rats. <i>(Indian Journal of Forensic Medicine & Toxicology, April-June 2021, Vol. 15, No. 2)</i>	
Presentations at Academic Meetings: I was doing my preliminary research to get stable data.	
Contact Address after the Period of this fellowship: Department of Oral and Maxillofacial Surgery Graduate School of Dental and Medical Sciences, Kagoshima University Sakuragaoka 8-35-1, Kagoshima, 890-8544 Japan	
E-mail Address: [REDACTED]	

Signature of Applicant: FREDY MARDIYANTORO Date: May, 18, 2021
